Message from the President

Monthly update

Eric Stevens (e_stevens@cox.net)

ARMS President

Officially its fall, but it doesn't feel like it. The past month I have seen an increase in activity (at least helicopter) at the field. I would like to remind everyone that they need to put up your current AMA card on the pole if you are flying. While I know most of you are current, you still need to post the cards for review by any SVF officer. Also please remember to be courteous and share your table space as we are sometimes a little crowded. And lastly, the foamy airplane area is South of the wash, not over the parking lot or thru the primary flight line/runway area.

Elections are in November, providing we have someone to run and enough people attend the meeting to vote. If you are interested in participating, please let myself or Paul Clifton know so that we can get the word out prior to elections.

That's it for this month's column, enjoy the pictures.

Eric

Technical Tips/For Sale

Turnigy Accucel-6 50W 5A Balancer/Charger

Paul Clifton Jr. (pcliftonjr@cox.net)

ARMS Secretary

I picked up this charger from Hobby City for \$39 plus shipping. They have a warehouse in the U.S...If it's in stock you can get it for around \$10 more plus shipping. It's got a built-in balancer for the HC Zippy/Align pinout and Adapters are available for TP and other packs for around \$3. This is a full featured 6S charger and a great value for the money. You can find out more info here:
