

Rotor Wash

Volume 13 Issue 11 & 12

November- December 2009

Message from the President

Monthly update

Eric Stevens (e_stevens@cox.net)

ARMS President

Fall/winter is here. The mornings are cooler and with that we are seeing more people out at the field. Over the last couple of months, an issue has reappeared and has escalated. Over the years, people have flown their park flier airplanes from the helicopter area at the field.

While this fell in a gray area of the SVF rules, it was tolerated. Due to the increased number of people flying in this area and crossing into the aircraft pattern, SVF has clarified the rule and park fliers are no longer allowed to be flown out of the helicopter area. They must be flown off the runway or in the park flier area. If you are approached, please do not get upset be civil. It appears that tempers have flared on both sides which is why this matter finally escalated to this point.

We are all there to enjoy this hobby and have some fun, but there are some rules that need to be followed. The club has more fuel at \$23 per gallon; I usually have some with me at the field. That's it for this bimonthly edition. Please note that the meeting date for December is the second Thursday, December 10th due to a scheduling conflict.

Eric

INSIDE THIS ISSUE

- 1- 2** President's Column
- 3** Technical Tips/ For Sale
- 4- 20** Photo's from the field
- 21** Note from the Secretary
- 21** Event Calendar

Next Meeting

December 10, 2009 @ 7:00pm

Deer Valley Airport
